

VL-5K

5" Portable Battery-Powered LCD Monitor Kit

- 5" Color LCD Display
- 640 x 480 Resolution
- 250 nits Brightness
- 400:1 Contrast Ratio
- NTSC/PAL Auto-Recognition
- Complete Kit, with All Accessories
- 1-Year Warranty

The TRU-Vu VL-5K is a tremendously helpful handheld LCD monitor, specifically designed for field engineers, technicians and installers. Its sharp image and crisp colors let you tune-in and focus cameras to the best image possible, quickly and accurately. (This is nearly impossible with low-resolution, smaller monitors). The VL-5K is ideal for camera installation and maintenance, mobile inspection systems, and security surveillance.

The VL-5K is provided as a complete easy to carry Field Service Kit, which includes the 5" LCD monitor, rechargeable Li-Ion battery pack, battery charger, neck and wrist straps, and carrying case. The AC Power Adapter also enables the monitor to be used on a benchtop, or in a permanent, fixed-position installation. New battery provides 5-6 hours run-time.

Specifications

LCD Panel	5" Color LCD
Resolution	640 (H) x 480 (V)
Display Colors	16 M
Aspect Ratio	4:3
Brightness	250 nits
Contrast Ratio	400:1
