

## **Large Sunlight Readable Monitors CLOSEOUT SPECIAL**

**Greetings!**

**In order to make room for our next-generation of Waterproof Sunlight Readable Monitors next month, we are offering incredible CLOSE-OUT pricing on our current, 47", 49", 55", & 65" models. Get 40% - 50% off, while supplies last.**

**The SXOB Series are ideal for use outdoors in nearly any weather conditions, or in demanding factory wash-down environments, These models are completely sealed (rated IP68/NEMA 6), have an operating temperature of -40° to +140°F, offer internal heating and cooling and optical bonding for optimal image quality in bight sunlight.**

**For less demanding applications, the more economical SXUV Series models are water resistant (rated IP55), have an operating temperature of -22° to +122°F, 500 nits brightness but do not offer optical bonding.**

**These would also be great for your patio, summer home, etc.**

**SXOB-47-XTR**

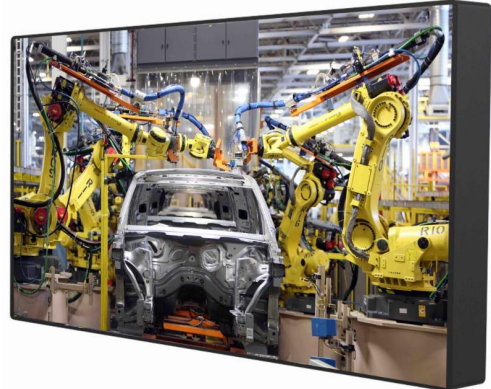

**SXOB-55-XTR**

**SXOB-49-XTR**

**SXUV-49**
