

PRESS RELEASE

FOR IMMEDIATE RELEASE

Largest Selection of 24VDC Industrial-Grade Monitors Available Anywhere

(Arlington Hts., IL) **TRU-Vu** Monitors, a leading supplier of industrial-grade LCD displays, now offers nearly every one of their hundreds of monitors and touch screens with the capability to be powered via 24VDC. This is in direct response to overwhelming demand from industrial, military, commercial, transportation and government clients.

There are many advantages to using 24VDC power over 120VAC wall power. Some of the many advantages are: greater safety for personnel; simpler installation without the requirement of safety gear; and maintenance can be performed on energized circuits to avoid extensive downtime. 24VDC power also offers distinct advantages over 12VDC power such as: less voltage drop for a given length of wire, less power loss over distance, and reduced installation costs (24VDC is more efficient, so can use smaller wire sizes).

The hundreds of new 24VDC monitors and touch screens now available include:

- Screen sizes from 8.4" to 50"
- Standard, Daylight Viewable and Sunlight Readable (up to 2,200 nits brightness)
- Analog and digital video inputs (Composite BNC, S-Video, VGA, HDMI, DVI, DisplayPort, HD-SDI)
- 4:3 and 16:9 aspect ratios
- Resistive, Capacitive, P-Cap, IR and SAW touch screens
- ABS, steel, stainless steel or aluminum enclosures
- Standard or NEMA 4X waterproof enclosures
- VESA mount, panel-mount, rack-mount or open frame configurations
- **TRU-Tuff** treatment for maximum shock & vibration resistance
- 3 Year warranty

All **TRU-Vu** monitors and touch screens models can be modified or customized to meet your specific needs. This enables you to get the display or touch screen that meets your exact requirements for size, resolution, brightness, enclosure and mounting.

TRU-Vu 24VDC monitors have been deployed in a wide range of industries and applications, including:

- Military and cargo planes and helicopters
- Aerial photography and surveys
- Flight simulators
- Roller coasters and amusement park rides

- Police cars and fire trucks
- Municipal buses and trains
- Military & law enforcement cars, trucks and other vehicles
- Drone systems
- Portable surveillance systems
- Manufacturing plants
- Inspection and monitoring systems
- Military ships, yachts, tug boats, race boats, fishing vessels & cargo ships
- Harbors and terminals
- Offshore oil rigs
