

PRESS RELEASE

FOR IMMEDIATE RELEASE

New Waterproof Sunlight Readable Touch Screen, Suitable for Any Environment

(Arlington Heights, IL) - **TRU-Vu** Monitors, Inc., a leading supplier of industrial-grade LCD monitors and touch screens, has just released a 17" waterproof sunlight readable panel-mount touch screen monitor designed to operate in nearly any environment.

The new [**SRMHTRWP-17C**](#) features 1000 nits of brightness, enabling it to be used both outdoors in direct sunlight, and indoors where bright lighting is present. The 5-wire Resistive touch screen provides the monitor with the ability to control processes, machines, kiosks, and more. Wide operating temperatures of -22° to +185°F enables use of the monitor in both hot and freezing environments. The waterproof stainless steel panel-mount enclosure enables it to be flush-mounted into a wall, door or cabinet. It is resistant to wash-down, saltwater, and rain.

The new [**SRMHTRWP-17C**](#) features an ambient light sensor, which adjusts the screen brightness automatically. It also has auto re-start after power loss. The monitor also features our exclusive **TRU-Tuff** treatment to ensure maximum shock and vibration resistance. The monitor is also backed by our full 3 Year Warranty.

The [**SRMHTRWP-17C**](#) is perfectly suited for use in kiosks, ships, amusement parks, museum exhibits, military systems and vehicles, law enforcement, manufacturing plants, AV systems, digital signage, oil and gas rigs, security/ CCTV systems, pipeline inspection systems, aircraft, industrial equipment, cranes, and more.

For more information on how the [SRMHTRWP-17C](#) touch screen can help meet your needs, please contact us at:
