FOR IMMEDIATE RELEASE:

See What You've Been Missing! New 21.5" Waterproof Sunlight Readable Monitors Are Ideal for The Great Outdoors

(Arlington Heights, IL) - Have you ever tried to see video images outdoors on a laptop, cell phone or video monitor screen? If so, they probably look like the left half of the picture above. Washed out, and barely visible...

TRU-Vu Monitors, Inc, a leading supplier of industrial-grade LCD monitors and touch screens, has released a new 21.5" Sunlight Readable LCD monitor which produces clear, sharp images even in direct sunlight. (Like the right half of the picture above.)

The new [SRMW-21.5R-SS](#) is specifically designed to produce clear, sharp video images in direct sunlight, or in any other high ambient light conditions. With a brightness of over 1,000 nits, this screen is 4 to 5 times brighter than conventional LCD monitors. The rugged NEMA 4X waterproof stainless steel enclosure resists rust and ensures dependable performance in nearly any conditions.

The [SRMW-21.5R-SS](#) features 1920 x 1080 full HD resolution; 178 x 178 viewing angles; protective Anti-Reflective glass; Auto Restart after power loss; rear VESA mount holes; VGA, HDMI and DisplayPort video inputs; 90-240VAC operation; our exclusive **TRU-Tuff** treatment for maximum shock and vibration resistance; TAA compliance and a full 3-Year Warranty.

It is also available with a touch screen, panel-mount enclosure, 1,500 nits brightness, ambient light sensor and many other options.

The [SRMW-21.5R-SS](#) is ideal for use in a wide range of industries and demanding applications, including: military, marine, law enforcement, industrial manufacturing, amusement parks, outdoor kiosks, vending systems, inspection systems, security and surveillance, and more.

This new model joins **TRU-Vu's** extensive range of Sunlight Readable monitors and touch screens with screen sizes from 8.4" to 55".
