The SRMXWP-15.6R Sunlight Readable waterproof panel-mount monitors are designed to operate in direct bright sunlight, or in other high ambient-light conditions. They utilize state-of-the-art LED backlights to produce 1,000 nits of brightness (vs. 250–300 nits for standard monitors). They are ideal for wash-down environments or where liquids, steam or moisture may damage standard monitors. The SRMXWP-15.6R is perfect for use in a wide range of industrial, marine, military, manufacturing, inspection, advertising and transportation applications where viewability in direct, bright sunlight is crucial.

All TRU-Vu industrial LCD monitors are specifically designed for use in demanding applications. Every TRU-Vu monitor utilizes industrial-grade components and high-end LCD panels not found in retail/consumer-grade monitors. This ensures superior image quality, improved performance and greater durability. Our 3-Year Warranty ensures you of reliable worry-free operation. Visit www.TRU-VuMonitors.com for more details.
