

NEWS RELEASE

FOR IMMEDIATE RELEASE:

NEW 19" SUNLIGHT READABLE MONITORS IDEAL FOR OUTDOOR USE

Arlington Heights, Illinois (June 27, 2012) - TRU-Vu Monitors, a leading supplier of customizable, industrial-grade LCD displays, has just introduced a new 19" Sunlight Readable LCD monitor. The new [SRM-19 Series](#) monitors feature 1,000 nits brightness, enabling users to clearly see video images even in direct, bright sunlight. (By comparison, laptop screens average 150-200 nits, and standard desktop monitors average 200-250 nits.)

The [SRM-19 Series](#) monitors are built with industrial-grade components to withstand demanding industrial and commercial environments. The [SRM-19 Series](#) monitors feature 1280 x 1024 SXGA resolution, VGA and BNC Composite video inputs, 1,000:1 contrast ratio, and operate on 12 VDC and 90-240 VAC. They are also available in touch screen and open-frame configurations.

The [SRM-19 Series](#) Sunlight Readable LCD displays are ideal for use in law enforcement and military vehicles, on ships, in airplanes and helicopters, for outdoor surveillance systems, in trains, and many other outdoor applications requiring excellent video image quality in direct, bright sunlight

The [SRM-19 Series](#) Sunlight Readable monitors are backed by a full 3-Year Warranty and can be customized to meet your exact requirements. They can also be private-labeled with your own model number and company name and logo.

For more information on the [SRM-19 Series](#) or any other **TRU-Vu** monitor, please contact:
