- 23.8" Medical Monitor
- Meets UL 60601-1 Ver. 3.1; IEC 60601-1-2 4th Edition
- 1920 x 1080 Full HD Resolution
- White ABS Enclosure; Bezel-Less Front Simplifies Cleaning, Increases Safety & Hygiene
- Built-In Speakers
- Auto Re-Start After Power Loss
- 3-Year Warranty

The TRU-Vu MMZB-23.8G Series are 23.8" medical monitors. It conforms to UL 60601-1 Edition 3.1, and IEC 60601-1-2 4th Edition. Our 23.8" medical display is ideal for hospital operating rooms, medical carts, medical imaging systems, fluoroscopy, endoscopy, OEM medical systems, PACS and other medical applications where medical-grade monitors are required.

23.8" MEDICAL DISPLAY, OPTIMAL IMAGE QUALITY

Our widescreen 23.8" medical monitor provides 1080p, 1920 x 1080 Full HD resolution. The super-wide 178 x 178 viewing angles ensures clear, sharp images when viewed from nearly any angle. Thanks to its high resolution, brightness and high contrast ratio, our 23.8" medical-grade display provides razor-sharp, flicker free images. This enables doctors and surgeons to make accurate, and timely, critical decisions. Fast response time and lag-free transmission of images ensure the most detailed images in the OR today for medical-grade monitors.

BEZEL LESS MONITOR, FULLY FLAT DESIGN

Our zero-bezel ABS enclosure features a single pane of glass across the entire front face of its 23.8" medical-grade display. Due to the absence of any raised-edge bezel (frame) around the front edges, this screen is extremely easy to clean (see [Cleaning Instructions Guide](#)) and improves overall hygiene. The bezel-less monitor enclosure eliminates the build-up of germs and contamination, as there is no bezel for them to reside beneath, as with standard enclosures. The rounded corners of the housing add a measure of comfort and safety, as well as improved aesthetics.

This lightweight surgical display features rear VESA mount holes which enables easy mounting via spring arms, surgical booms or tabletop stands. Visit our wide range of [LCD monitor mounts and stands](#) to complete your installation. Rear speakers are standard and can provide useful tones or alarms.

FANLESS MEDICAL GRADE MONITORS

All our Medical displays are built without internal fans. A fanless design provides numerous important benefits. Reliability and durability are greatly increased, since one major moving part, the fan, which is subject to mechanical failure, is eliminated. A fan-less design also provides a higher level of safety in sterile environments, as it eliminates the circulation of pathogens and dust. Lastly, a fan-less monitor is also quieter and a useful feature on medical-grade monitors.

OUR TECHNICAL EXPERTS ARE READY TO HELP YOU FIND THE BEST MEDICAL DISPLAY

With over 200 LCD monitors and touch screens on our site, selecting the ideal monitor solution may be a bit overwhelming.
