SUNLIGHT READABLE MONITORS

The SRM-17S-DB-H are 17" sunlight readable monitors. They feature at least 1000 nits brightness and a 4:3 aspect ratio. We design the SRM-17 Series monitors for use in direct sunlight. Consequently, they are also perfect for other high ambient-light conditions. They utilize state-of-the-art LED backlights. The models in this series produce at least 1,000 nits brightness. In contrast, this is over 3 to 5 times brighter than standard monitors. For example, standard monitors are only 200-300 nits brightness. Therefore, the result is amazingly bright screen. This will provide you with crystal-clear images, even with bright, direct sunlight on the face of the screen.

RUGGED INDUSTRIAL MONITORS

The SRM-17S-DB-H Sunlight Readable monitors are extremely rugged. For instance, we build them with true industrial-grade components. Furthermore, they receive our exclusive *TRU-Tuff* treatment. The *TRU-Tuff* process includes RTV silicone on all connections and critical components. Additionally, all wires are dressed, tie-wrapped and secured. Lastly, we apply ThreadLock to all screws. The ABS enclosure will ensure shock and vibration resistance for this rugged 1000 nit monitor.

HIGH BRIGHTNESS MONITOR WITH EXTREME OPERATING TEMPERATURES

We design the SRM-17S-DB-H 17" High Brightness Display Series to operate in nearly any environmental conditions. Whether in frigid conditions or blazing heat, these sunlight displays will survive and thrive. To clarify, these monitors will operate in temperatures down to -30°F (-35°C). They will also withstand brutal heat. Moreover, operating temperatures go up to 185°F (85°C). The rugged ABS enclosure assures these 17" high brightness displays will provide years of reliable imaging performance. Specifically, typical MTBF for these monitors is 50,000 hours.

HIGH BRIGHT MONITORS DEPLOYED WORLDWIDE

Our 17" sunlight readable monitors have been deployed in a wide range of demanding industries. For example, military, law enforcement, and entertainment benefit. They are also found in inspection, oil and gas, and transportation. Additionally, see how pipeline, manufacturing and drone industries also enjoy TRU-Vu displays. *TRU-Vu* monitors are backed by our full 3-Year Warranty. This ensures you of many years of reliable service.
