- HDMI, DisplayPort, and DVI Video Inputs
- Internal Speakers
- Auto Re-Start After Power Loss
- Lockable On-Screen Display Controls
- 9-36 VDC Power
- 3-Year Warranty

HIGH BRIGHTNESS P-CAP TOUCH SCREEN DISPLAYS

The SRMTP-21.5G-36A are 21.5" sunlight readable touch screen high brightness monitors. They feature at least 1000 nits brightness and a 16:9 aspect ratio. We design the SRMTP-21.5G-36A sunlight bezel less touchscreens for use in direct sunlight with full HD resolution. Consequently, they are also perfect for other high ambient-light conditions. They utilize state-of-the-art LED backlights. The models in this series produce at least 1,000 nits brightness. In contrast, this is over 3 to 5 times brighter than standard monitors. For example, standard monitors are only 200-300 nits brightness. Therefore, the result is an amazingly bright screen. This will provide you with crystal-clear images, even with bright, direct sunlight on the face of the screen.

RUGGED INDUSTRIAL TOUCH SCREEN MONITORS

The SRMTP-21.5G-36A 21.5" Sunlight Readable touch screen monitors are extremely rugged. For instance, we build them with true industrial-grade components. Furthermore, they receive our exclusive TRU-Tuff treatment. The TRU-Tuff process includes RTV silicone on all connections and critical components. Additionally, all wires are dressed, tie-wrapped and secured. Lastly, we apply ThreadLock to all screws. The rugged aluminum enclosure will ensure maximum shock and vibration resistance for this rugged 1000 nits brightness monitor.

SUNLIGHT BEZEL LESS TOUCHSCREENS

We design the SRMZTP-21.5 sunlight readable touch displays to operate in nearly any environmental conditions. Whether in frigid conditions or blazing heat, these sunlight displays will survive and thrive. To clarify, these monitors will operate in temperatures down to -4°F (-20°C). They will also withstand brutal heat, with operating temperatures up to 176°F (80°C). The Aluminum or rugged bezel-less front and Aluminum rear enclosure assures these 21.5" high brightness touch screens will provide years of reliable imaging performance. Specifically, typical MTBF for these monitors is 50,000 hours.

TRU-VU TOUCH SCREENS DEPLOYED WORLDWIDE

Our 21.5" sunlight readable touch screen monitors have been deployed in a wide range of demanding industries. For example, military, law enforcement, industrial manufacturing, aviation and entertainment benefit. They are also found in inspection, kiosks, heavy equipment, and transportation.
