- TAA Compliant

24 INCH ZERO BEZEL MONITOR

The ZBVM-24R monitors offer the latest look in LCD monitor technology. The Zero-Bezel design removes the front frame (or bezel) used on standard monitors and replaces it with a seamless edge-to-edge piece of glass. All *TRU-Vu* industrial LCD monitors are specifically designed for use in demanding applications. Every *TRU-Vu* monitor utilizes industrial-grade components and high-end LCD panels not found in retail/consumer-grade monitors. This ensures superior image quality, improved performance and greater durability. Our 3-Year Warranty ensures you of reliable worry-free operation on this 24 inch zero bezel monitor.

This has a full HD resolution of 1920 x 1080 (1080p/60) and includes speakers. The operating temperature is 32° to 122° F (0° to 50° C).

FRAMELESS MONITORS

The bezel is the outside frame or edge that surrounds the monitor's front glass or LCD panel. For aesthetics or hygiene, many people prefer a bezel less monitor, or frameless monitor. They go by many names: zero-bezel monitors, or bezel-free monitor. These are simply monitors without frames which have a single piece of glass covering the entire front face of the monitor. The glass goes edge-to-edge, in all direction in monitors without bezels. This type of monitor has no bezel or frame around the front edges, as seen with typical LCD monitors. You'll love the sleek, modern appearance as well as the hygiene benefits. View all frameless monitors.

EASY TO CLEAN

The enclosure of a monitor is what surrounds the screen and all other components. Enclosures offer different looks, feels, and advantages and disadvantages. Since monitors without bezels use a single, solid surface, they are easy to clean. You won't have to worry about contamination or germ build-up. There is no where for germs to hide on this 24 inch zero bezel monitor. These hygiene advantages are why so many modern medical LCD monitors and medical touch screens feature a zero bezel monitor design.

MONITORS BUILT FOR DEMANDING APPLICATIONS

This series of *TRU-Vu* monitors utilizes industrial-grade components and high-end LCD panels not found in retail or consumer-grade monitors. This ensures superior image quality, improved performance and greater durability. The ZBVM-24R industrial 24" LCD displays offers both VGA, DVI and VGA, HDMI, DisplayPort input options and an extensive list of available OEM options enables you to customize a solution to your specific needs. *TRU-Vu* monitors are backed by our full 3-

year warranty. Consequently, this ensures you of many years of reliable service.
