FOR IMMEDIATE RELEASE:

***TRU-Vu* Introduces 15.6" Sunlight Readable LCD Monitors**

Arlington Heights, Illinois (November 6, 2013) - With the growing demand for high-bright displays, ***TRU-Vu*** Monitors has introduced 2 new 15.6" widescreen Sunlight Readable monitors: the [SRM-15.6J](#) monitor and [SRMTS-15.6J](#) touch screen.

The [SRM-15.6J](#) features a 15.6" widescreen LCD panel, 16:9 aspect ratio, 1,000 nits brightness and 1366 x 768 (720p HD) resolution. It provides DVI and BNC video inputs, as well as VGA and HDMI via the included adapter cables.

The [SRMTS-15.6J](#) is a Sunlight Readable Touch Screen monitor, featuring a SAW (Surface Acoustic Wave) touch panel. It has the same 1,000 nits brightness and other specifications as the above unit.

Both models are designed to produce clear, vivid color images even in direct sunlight. They are ideal for use in a wide range of industrial, military, transportation, inspection, marine, advertising and entertainment applications.
