PRESS RELEASE

FOR IMMEDIATE RELEASE

High-Bright Monitors for Use in Direct, Bright Sunlight

(Arlington Heights, IL) - *TRU-Vu* Monitors, Inc., a leading provider of industrial-grade LCD monitors and touch screens, has released a new high-brightness monitor with over 1,500 nits of brightness, ideal for use in direct, bright sunlight.

The new <u>SRMH-24R</u> features a 24" screen with 1920 x 1080 full HD resolution. The 1,500 nits brightness means the <u>SRMH-24R</u> is 7 times brighter than a typical desktop monitor. It will produce clear, sharp video images even when used in direct, bright sunlight. The ALS (Ambient Light Sensor) automatically adjusts monitor brightness depending upon ambient light conditions.

The <u>SRMH-24R</u> is ideal for use in a wide range of industries:

Military
Sports Stadiums
Pipeline Inspection
Outdoor Kiosks
Marine

Mobile/Portable Surveillance Systems

Law Enforcement Amusement Parks Digital Signage Outdoor Advertising Transportation

The <u>SRMH-24R</u> is also available with optional touch screens, NEMA 4X waterproof enclosures, and more.

For more information on any of TRU-Vu's Sunlight Readable monitors, please feel free to contact:
