TRU-Vu Releases New 24" Medical-Grade Displays

(Arlington Heights, IL) - **TRU-Vu** Monitors, Inc., a leading supplier of Medical-Grade grade LCD monitors and touch screens, has released a new series of 24" Medical-Grade LCD displays.

The [MM-24 Series](#) Medical monitors feature a 24" screen with 1920 x 1080 Full HD resolution. The 178" x 178" wide viewing angles ensures multiple physicians can view images simultaneously from nearly any angle without image distortion. They are available with VGA, HDMI, DisplayPort and DVI video inputs to ensure universal compatibility with other devices and systems. They are available with internal or external Medical-Grade power supplies. Rear VESA mount holes enable a wide range of mounting options, including boom arms, table top bases, wall mounts and ceiling mounts.

All [MM-24 Series](#) Medical displays are certified to UL60601-1, enabling them for use in surgical operating rooms and surgical theaters. They are also ideal for use on medical carts, in ICU's, and for endoscopy and other medical systems.

The [MM-24 Series](#) Medical-Grade displays are also available as P-Cap (Projected Capacitive) touch screens, and with a Zero-Bezel all-glass front face.
