

## PRESS RELEASE

### FOR IMMEDIATE RELEASE

### ***The Ultimate Sunlight Readable Waterproof LCD Monitor/TV***

(Arlington Heights, IL) - **TRU-Vu** Monitors, Inc., a leading supplier of industrial-grade LCD monitors and touch screens, has just released a new 49" super bright outdoor waterproof maintenance-free Sunlight Readable monitor. It is ideal for use in nearly any environment where bright light, water, dirt, dust or airborne contaminants would damage a standard monitor.

The new **SXOBH-49-XTR** offers the ultimate in image quality and brightness, as well as the ultimate protection against the elements.

The 49" screen features 1920 x 1080 full HD resolution and over 2,500 nits of brightness (10X brighter than a standard monitor). The screen is protected and the image quality enhanced via optical bonding and a 5mm impact-resistant glass with anti-reflective coating (IK10).

The monitor is enclosed with a rugged corrosion-resistant housing. It is completely sealed, rated IP68, with no entry points for water, dirt, dust, sand or airborne particles. It is also completely maintenance-free with no fans, vents, or filters to clean or change.

The **SXOBH-49-XTR** also features:

- Analog and digital video inputs
- Auto restart after power loss
- Keylock function to eliminate tampering
- Ambient light sensor to adjust screen brightness automatically
- 12VDC and 5VDC power outputs
- Remote diagnostics
- Operating temperature of -31° to 140°F

If you need bright, sharp video images in any conditions and the ability to survive in nearly any environment or harsh industrial setting, look no further. The [SXOBH-49-XTR](#) is ideal for bus and rail mass transit, sports stadiums, arenas and race tracks, military and law enforcement, boats and ships, paper, wood, steel mills, and many other challenging environments.

For more information on how the [SXOBH-49-XTR](#) displays can help meet your needs, please contact us at:
