

PRESS RELEASE

FOR IMMEDIATE RELEASE

43" Sunlight Readable Waterproof LCD Monitor/TV

(Arlington Heights, Illinois) - **TRU-Vu** Monitors, a leading supplier of industrial-grade LCD monitors and touch screens, has just released a new 43" super-bright outdoor waterproof maintenance-free Sunlight Readable monitor. It is ideal for use in nearly any environment where bright light, water, dirt, dust or airborne contaminants would destroy a standard monitor.

The new [SXOBH-43-XTR](#) offers the latest advancements in image quality and the ultimate protection against the elements. The 43" screen features 1920 x 1080 full HD resolution and over 2,500 nits of brightness (10X brighter than a standard monitor). The screen is Optically Bonded, which enhances image quality and increases durability. 5mm Anti-Reflective, impact-resistant safety glass (rated IK10) protects the screen from damage.

The monitor is enclosed in a rugged, corrosion-resistant housing. It is completely sealed, rated IP68, with no entry points for water, dirt, dust, sand or airborne particles. It is also completely maintenance-free with no fans, vents, or filters to clean or change.

The [SXOBH-43-XTR](#) also features:

- Analog and digital video inputs
- Auto re-start after power loss
- Keylock function to eliminate tampering
- Ambient light sensor to adjust screen brightness automatically
- 12VDC and 5VDC power outputs
- Remote diagnostics
- Operating temperature of -31° to 140°F

If you need bright, sharp video images in any lighting conditions and the ability to survive in nearly any environment or harsh industrial setting, look no further. The [SXOBH-43-XTR](#) is ideal for bus and rail mass transit, industrial manufacturing facilities, sports stadiums, arenas, race tracks, military and law enforcement, boats and ships, paper, wood and steel mills, and many other challenging environments.

For more information on how the [SXOBH-43-XTR](#) displays can help meet your needs, please contact us at:
